Subject: An Act Concerning Support For Animals that are Neglected or Treated Cruelly

My name is Carole Brunell, and I live in Wallingford, Ct. I am hearing way to many stories of neglect and abused animals in my state. I want to speak up for those who have no choice and have NO voice. It's about time we get others to speak up, too! We cannot and must NOT tolerate this "sick" behavior in our state or any state! We must get justice for the abused.

Recently two dogs were repeatedly raped until their insides were so torn up that they were brought to the vet. I know one had to be put down, did not hear about what happened to the other. Both were owned by the same person. This person is so sick, he needs to be punished! This is just NOT acceptable behavior.

I write to you to show my support of this Bill. I pray our state Representatives and Senators vote for the passage of this bill NOW!
